### **Sub-Contractor Induction and Procedures**

Latin Transport has a procedure in place to vet and induct new sub-contractors.

Before commencing work each sub-contractor must provide the following:

- A valid driver's license.
- Current insurances for the vehicle.
  - Public Liability
  - Marine Insurance
  - Trailer-in-Control
- Current registration.
- Incorporated company information.

The sub-contractor must sign a Latin Transport Tow Operator agreement before commencement. The sub-contractor will tow Latin Transport trailers. The sub-contractor will work exclusively for Latin Transport.

By incorporating the above procedures Latin Transport seeks to indemnify its customers from potentially damaging situations which may arise.
